What Modern Methods and Equipment Mean to You

***PACKING HOUSE WITH REFRIGERATION** is your assurance of plants arriving in A-1 condition as all of our nursery stock is fresh dug—precooled in our spacious cooler—then shipped direct to you.

***UP-TO-THE-MINUTE FARM EQUIPMENT** assures you of getting only the finest, fully matured plants, as our modern farm equipment enables us to get our nursery stock in the soil in proper planting season, giving it a lengthy growing season, in which to mature fully.

***WITH OUR LARGE SCALE IRRIGATION SYSTEM** we are (even in drought seasons), always able to produce healthy, extra heavy rooted, quality stock for you.

***CROP ROTATION.** Healthy, sturdy, northern grown nursery stock is the result of our years ahead plan with definite crop rotation, and in conjunction with this we maintain a large herd of steers to produce the highest fertility, which in turn goes directly into the plants you receive from the Westhauser Nurseries.

***HARDY NORTHERN CLIMATE.** Our northern climate in the great Michigan Fruit Belt is ideal for growing thrifty, hardy nursery stock, being located so near Lake Michigan, which puts a damper on our winters, making the climate such that our nursery stock is practically dormant until late in spring. Bear in mind, Mr. Fruit Grower, plants that are dormant so late in the season have little foliage and carry well in transit, that is one of the reasons why our plants can be shipped long distances with the best of results.

***GET THE BEST AT NO EXTRA COST.** In spite of rising prices, with the modern facilities mentioned above, we are able to keep our costs at a bare minimum. We pass this savings on to you.

ORCHARD AND NURSERY INSPECTION Certificate of Nursery Inspection No. 105

This is to certify that the Nursery Stock of Westhauser's Nurseries, Sawyer, Mich., has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases. Fee paid. Chas. Figy, Commissioner.

This certificate to be void after September 15, 1948. Bureau of Agricultural Industry, C. A. Boyer, in charge of Orchard and Nursery Inspection, Lansing Mich., Sept. 3, 1947.

Feb. 18, 1947, Mr. Jacob Sauter of Georgia writes: "Received my order today and in good condition. I wasn't expecting to receive it so soon, I truly appreciate the quick service. I know when and where to buy now, for Quality and Good Service."

(These are just two letters that we receive annually from our thousands of satisfied customers.)

Mar. 31, 1947, Mrs. Rose Priest of Indiana writes: "Received plants on the 15th and wish to thank you for the fine stock and the marvelous way that you packed them. They were all well rooted and are doing fine. Again I thank you."

YOUR INVITATION FROM THE WESTHAUSERS
You are cordially invited and most welcome to visit
our Packing House, Offices and Farms any time.

WESTHAUSER'S BROAD GUARANTEE. We guarantee our nursery stock to be first class in every respect, free from disease, freshly dug, true to name, and to leave our packing house in good growing condition. We will, at our option, either replace free of charge or refund your money on any shipment which arrives in bad condition, providing claim is made within five days after arrival of shipment, with a signed statement from your express agent or postmaster, showing the extent of damage. It is mutually agreed between customer and ourselves that we cannot be held liable for any amount greater than the original purchase price. Our stock is carefully handled and full of vitality and under ordinary conditions should grow for you. Report any error on our part immediately upon receipt of shipment. We will not entertain any claims entered after July 1st.

SUPERFECTION

THE NEW EVERBEARING STRAWBERRY

This new find was originated in the North Central part of Michigan and threatens to take the place of many of the old standby everbearers. The plants are

very sturdy, making adaptation on any soil without extra care. They are free plant makers, always a good picking row.

The berries are large and round, red to the center, with a sweet, pleasing, mellow flavor. The berries are firm, no softening or discoloring, heavy producer of luscious berries. Delicious to eat from the hand, canned, preserved, or in jams and jellies, as well as fresh frozen. A crop in 60 to 90 days after planting and on until snow flies. Next year an early spring crop, and berries throughout the season. (See yellow block page 3 for Superfection prices.)

How to Order

WHEN TO ORDER. Now, upon receipt of this catalog, or as soon thereafter as possible, so we can reserve the stock you wish. Orders are booked in the rotation they are received, and we ship as near date requested as possible, according to weather conditions. Shipping begins usually early in March to latter part of May.

HOW TO ORDER. An Order Blank is provided herewith for your convenience. Fill out clearly and be sure to print or write your name and address plainly, thus avoiding errors and delay. Remit by cash, money order or check. If cash is remitted be sure to register letter.

PAYMENT AND TERMS. Cash with order, or if your order amounts to \$5.00 or more we will book same with 25% down payment, and balance 10 days before you wish your stock shipped.

DISCOUNT. Orders received before February 1st, excepting those marked net, no discount, with full cash enclosed, are subject to 10% discount. Either deduct this amount from your remittance or select extra nursery stock for the amount. (We assume no obligation to refund, if you fail to deduct it.)

Westhauser's Everbearers

MINNESOTA 1166 (Evermore)

Improved Heavy Producing Strain

One of the newer varieties rapidly replacing older varieties has proven itself hardy, sturdy and fruitful even under adverse conditions. Delicious berries 60 to 90 days after planting, continuing until snow flies, followed by a fine crop next year.

GIANT CONICAL SHAPED BERRY. Very showy, bright red to the heart. Fine for home use. Firm, excellent shipper. Brings top prices.

MAKES HEAVY FRUITING ROW. Being such a good plant maker we suggest you space it a little farther apart than the ordinary everbearer, say about 18 to 24 inches.

GEM the Crimson Everbearer

This outstanding everbearer has been with us for 12 years and is still a great favorite.

FLAVOR. Berries have an enticing flavor, and very fine grained texture.

SHOWY. On account of the scarlet-red color it is very showy.

FIRMNESS. Excellent shipper.

FOLIAGE. Always makes a good fruiting row, and is very hardy.

BRUNE'S MARVEL

A new non-acid everbearing Strawberry. Can be eaten by those who are affected with rash by other Strawberries. No sugar is required as they are unusually sweet. The berries are of glittering red, almost seedless. Brune's Marvel is a thrifty plant maker, making a good full fruiting row.

MASTODON The Reliable Everbearer

The old, old standby, with us for 25 years. Mastodon produces extra large berries of excellent flavor, with a glossy appearance. It is an excellent plant maker, and makes a full fruiting row. Truly a delight to pick. Makes adaptation to any type of soil. By special precaution and careful selection we have one of the most select strains of Mastodon that you can secure, excelled by none no matter what price you pay.

Outstanding Varieties

PREMIER The Leading, Earliest, Worth-While Commercial Variety

A standard variety that has stood the test for over 20 years. Premier produces and gets on the market early when there is a good demand and practically no Strawberry competition. This alone makes it a prize money maker. The berries are large, beautiful red appearance, very firm, fine texture and flavor. It holds its size to the last of the season. Premier is an all-purpose Strawberry—excellent for freezing, canning, eating fresh, also local and long distance hauling. The plants are very productive, sturdy, long-rooted, good drought resisters, and make a good fruiting row on any kind of soil.

GREAT MASTER

A new late money maker. Great Master is a seedling discovered fruiting years ago. After watching this berry and putting it to the most rigid tests we were amazed to find it really exceeded our fondest hopes. It is a large, real firm, fancy, glossy berry with a superb flavor of its own, outbears other spring berries two to one. The plants are large and thrifty, making many runners, but space their plants far enough apart to insure large sized berries. They ripen about 3 weeks after Premier and mature every berry to full size. Watch GREAT MASTER, buy some plants now and be the first in your locality to grow this outstanding wonder berry. Prolong your fruiting season and have fancy berries when the others are gone.

Mr. Northcott of Indiana writes:

Enclosed find my order for Strawberries and trees. My conscience has bothered me for not acknowledging the wonderful results obtained from your plants. My original order of 150 plants lived in entirety. A small yield was obtained in the fall. Last year's crop was beautiful and abundant.

DUNLAP The Old Standby

Dependable midseason to late, berries medium to large, conical and often slightly necked, dark crimson, with deep red flesh; quality very good. The plants are healthy and vigorous, very productive, grow on all types of soil and in extremely cold climates. One of the best canning varieties. It can be shipped to far distant markets. Holds up for a long time after picking. Comes into bearing a few days after Premier.

NEW GIANT SENSATIONAL

Robinson

Greatest contribution to the Strawberry industry. It's sensational! Glossy, scarlet red to the heart. Juicy with a sweet, mild flavor. Giant size, conical shaped.

Introduced right here in the **Heart of the Fruit Belt**. Being a fancy berry it is the buyer's delight. Premium prices are paid for this early fancy berry. Include Robinson in your planting this year. Reap **big cash returns** next spring.

Abundant crop—ripens early, few days after Premier, lasting over a long fruiting period, holding its large size to the last picking. A firm berry—excellent shipper.

NNo berry has ever surpassed Robinson for canning, preserving, fresh frozen, nutritious, delicious for Strawberry shortcake. No doubt the fanciest and most attractive berry ever introduced.

Thrifty plant maker, Robinson places its runners profusely and makes the ideal picking row. The heavy **foliage** is a beautiful light green color.

GRAND CHAMPION

(An Exclusive Westhauser Introduction)

Only from Westhauser's can you buy the **original strain**. Grand Champion, found as a single seedling on a decaying stump, has won popularity with amazing rapidity. The first year it produced thirty plants, which were set out on a space of 66 square feet. The following spring we harvested 105 quarts of berries off this setting. **Think of it—over 13,400 quarts per acre**. During the harvesting we picked 1920 quarts from less than one-seventh of an acre or the equivalent of 13,400 quarts per acre. **Bears over 40 days**. We began picking the middle of the Premier harvest and were still picking **Grand Champion** with the later varieties.

No crop failures on account of spring frost. Its tall mass of foliage protects the blossoms from late freezing. It would not be saying too much if we called Grand Champion the **spring everbearer**, as we have picked Strawberries for 40 days. On account of its continual blooming, crop failure is almost impossible.

No Finer Quality. For quick freeze, canning and preserving; really in a class by themselves, as they are coreless and retain their shape and flavor in the can. Buyers of fancy fruit are attracted by their rich red color, extra large size, and the beautiful appearance of such high quality.

Here are Those GREAT BIG DELICIOUS GIANT HYBRID BLUEBERRIES

- Beautiful
- Profitable
- Ornamental
- Last a Lifetime

A JOY TO EAT. Large, juicy hybrid Blueberries are two to three times the size of common Blueberries, actually resemble a bunch of Delaware Grapes. Can be used many ways, both fresh and cooked. Tasty and colorful in desserts or salads. In muffins, yum! yum! Folks, they are mighty good fresh frozen, and for something delightfully different can them with a few spices, a dash of cinnamon, a bit of whole cloves, etc., like you do your spiced Peaches.

A DELIGHT TO SEE. The beautiful ornamental bushes have a pinkish white, bell shaped blossom, with a dark green, narrow, heavy foliage turning coppery red in fall. Attractive for hedge plantings.

A PLEASURE TO PICK. Bushes grow 6 to 8 feet high, start fruiting in July continuing on to September. Blueberries hang on the bushes exceptionally well after maturity, better than most small fruits, picking once a week is usually often enough.

A HUGE SUCCESS. Here in Berrien County, the heart of the Fruit Belt, local growers are planting Blueberries extensively. The average yield for full bearing plants, under good conditions, is from 2,000 to 3,000 quarts per acre, although occasionally much higher yields are obtained. Rich harvests ranging from \$1,000 to \$1,500 per acre are not uncommon.

CROSS POLLENIZATION. At least two plants should be planted together for cross pollenization. Can be same variety. This insures more and larger berries.

VARIETIES: JERSEY—RANCOCAS and RUBEL. The, most popular home and commercial varieties.

FOR QUICK RESULTS PLANT GIANT 5-YEAR TRANSPLANTS

Loaded with fruit buds, will bear crop the first year, often paying more than cost of plant. The 5-year bush is well on its way to full fruiting stage when you consider a bush reaches full maturity at 9 years. These plants are packed in Westhauser's Gro-Kwick, Nitro-Organic Humus, which can be used in transplanting. (For additional Gro-Kwick see page 7).

3-YEAR HEAVY-ROOTED BEARING TRANSPLANTS

12 to 15 inches.

Heavy branched canes with extra heavy root systems, and a setting of some fruit buds. Plants are balled with their original soil and in addition we pack them with enough WESTHAUSER'S ACID GRO-KWICK, NITRO-ORGANIC HUMUS to insure best results.

2-YEAR HEAVY-ROOTED TRANSPLANTS

These heavy-rooted, 2-year transplants are well branched and ready to go. They are packed in WESTHAUSER'S ACID GRO-KWICK, NITRO-ORGANIC HUMUS.

FANCY 1-YEAR BLUEBERRY PLANTS

Recommended especially for the commercial grower.

Home Garden NOVELTIES OF REAL MERIT

BLACKBERRY CRYSTAL WHITE

Strange as it may seem, this is a real creamy white, honey-sweet Blackberry. Mixed with the jet-black ones makes a novel dessert. Fruit is about the size of the Alfred, with few seeds, very sweet when fully ripe. Bushes are good, strong growers and very productive. This is not a worthless novelty, but a fruit of real value, and should be in every garden. Two-year, giant transplants will bear a good crop this year, starting in August. **PRICES:** 2-Year, Bearing Age Transplants: 40c each; 3 for \$1.00; 6 for \$1.85; 12 for \$3.50.

3-Year, Extra Heavy, Giant Plants: 55c each; 3 for \$1.50; 6 for \$2.50; 12 for \$4.25.

Everbearing BLACKBERRY

This new large Everbearing Blackberry of jet-black color has a fine spicy flavor, honey-sweet, few small seeds and no core. Starts to bear in July and continues until winter. The plants are drought and disease resistant. No garden should be without some of these plants. Supply limited. Order now. **PRICES:** 2-year, extra heavy, bearing age, \$1.25 each; 3 for \$2.50; 6 for \$4.75.

Purple Cap POTOMAC

The leading purple Raspberry. Berries are large, firm and when fully ripe have a delicious, mild, sugary flavor all their own, "a blend between a black and red Raspberry", meaty with very small seeds. **VIGOROUS—PRODUCTIVE—HARDY.** Order now, supply limited. First come—first served. **PRICES:** 1-year, No. 1 plants, 3 for 90c; 6 for \$1.50; 12 for \$2.75; 25 for \$3.50; 50 for \$6.00.

Golden Queen RASPBERRY

Six Giant, Extra Large, 2-Year Transplants,
Only \$2.75

This rich, golden yellow Raspberry is not only a novelty but in many cases is grown in preference to the red and black Raspberry because of its sugar-sweet flavor. Plants are vigorous growers, berries large and immense producers. Get some for your garden now. **PRICES:** 2-year, bearing age transplants, 3 for \$1.75; 6 for \$2.75; 12 for \$5.00.

GRO-KWICK Nitro-Organic Humus (Acid Peat)

Taken from a drained lake bed of clean, odorless, highly vitalized, decomposed pure vegetation; consists of humus, nitrogen, phosphate and other minerals. Holds 15 to 20 times its own weight of water. Has never been touched by man; in all probability this deposit has been collecting for thousands of years. Ideal for Blueberries, Evergreens; in fact, all acid loving plants.

PRICES: 1 bag (2 bus.), \$1.50; 2 bags (4 bus.), \$2.75; 5 bags (10 bus.), \$6.25; 10 bags (20 bus.), \$11.00. Net, No Discount.

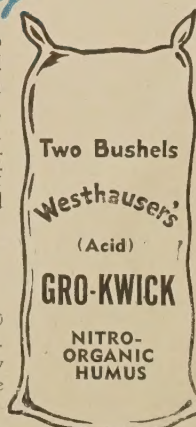

How to Grow Blueberries Successfully

Make an opening three or more times larger than the roots, large enough to receive all the roots without crowding. Mix the dirt, removed from holes, half and half with Westhauser's Gro-Kwick Acid Peat, or some acid material such as decayed leaves, rotten straw or vegetable refuse, firm this well around the roots of the plants. We recommend that a handful of sulphur be put around each plant in the spring. Give the one-year plants one-half ounce of Sulphate of Ammonia, for the older plants increase one-half ounce for each additional year. Do not let the Sulphate of Ammonia get in contact with the foliage. This can be purchased at your local feed store, and is very inexpensive.

Gro-Kwick SOIL KING (Non-Acid Peat)

Nature's own plant and soil rejuvenator. A full fertilizer, absorbs 15 to 20 times its own weight of water. Excellent for lawns, and all other plantings. **WEIGHT:** 1 bag (2 bus.) is approximately 50-75 lbs. Have it shipped early by freight and save on transportation. Because of the uncertainty of freight we will not ship that way after March 15th, from then on by express.

PRICES: 1 bag (2 bus.), \$1.60; 2 bags (4 bus.), \$3.00; 5 bags (10 bus.), \$6.50; 10 bags (20 bus.), \$12.00. Net, No Discount.

INDIAN SUMMER Everbearing GIANT Red—2 CROPS IN 1 YEAR! Double Bearing—Double Profit

The best Everbearing Raspberry; one of the first to ripen, bearing a full crop in June—another immense crop in fall. The berries are mammoth, conical with small cavity, deep red color and highly flavored. The plants are hardy, tall and thrifty, require little care. In production will equal and outbear other red Raspberries. Delicious fresh. Put some in your locker or deep freeze so you can have them fresh all winter. Can some for those unexpected guests, it will be a treat to them and a dessert worry off your mind. Attention commercial growers! Indian Summers are good shippers. Get premium prices for Raspberries out of season. Double bearing—double profits.

Mr. McGinnis of New Mexico writes: This is to advise you that the order I placed with you on Nov. 12th last has arrived in perfect condition, and are the most perfectly rooted plants I have yet seen.

BLACKBERRIES

ELDORADO. Best late Blackberry. Satisfies both home and commercial grower. Bears young, producing almost a full crop first year after planting. Sparkling jet-black berries are large, sweet, uniform in size and are practically coreless; do not turn red after picking. Hardy, vigorous, disease-resistant, regular heavy producers. Fruits over long season, your assurance of big profits.

ALFRED. The practically coreless Blackberry, originated in Michigan, the state that produces fruit with the flavor. The color is glossy jet-black, the flavor sweet and delicious, and is nearly seedless and coreless. A hardy plant that produces mammoth berries, often 1¾ inches long. It does equally well in cold sections. Why not include a few in your order and get started raising this profitable berry?

The New THORNLESS BOYSENBERRIES

**King of all Brambles. The Last Word for
Size — Beauty — Flavor**

Plant Westhauser's proven heavy bearing strains for Early! Big Cash Money! **PRODUCTION** of the Thornless Boysenberry is greater than its parent, Regular Thorny Boysenberry, which has produced over 6 tons of berries per acre. It ripens 10 to 14 days earlier than Thorny Boysenberry. For the garden, 6 to 12 plants will supply average family.

VINES are smooth as a Grape vine with shoots 6 to 10 feet long. Easy to pick and handle. This means labor saving not only to the commercial grower but also to the home gardener. Those thornless, light green vines full of luscious, deep maroon, almost black, mammoth sized berries often 2 inches long are a sight of beauty.

FLAVOR is a superb, rich, pleasing blend of the Raspberry, Loganberry, and Blackberry. It's a sensational, satisfying taste with unmatched qualifications. Something you will long remember in jam, jellies, pies, cordials, fresh frozen, canned or fresh.

PIONEERS IN THE BOYSENBERRY FIELD. Being pioneers in Boysenberries, we are able to offer you northern grown, healthy heavy-rooted plants. Tested and hardened to northern climate and proven to withstand sub-zero weather. This is your assurance of absolute success.

BOYSENBERRY AND THORNLESS BLACKBERRY CULTURE

Set plants 8 by 8 feet in and between rows. Let the vines creep on the ground the first year. To be safe, cover the plants with straw, leaves or soil before heavy frosts. When the buds appear, tie the vines to the wire or trellis about 2½ feet above the ground. After fruiting, cut old vines or canes to the ground, remove and burn, allow the young shoots to remain on the ground as in the beginning, repeat the practice every year.

THORNLESS BLACKBERRY

**Absolutely Thornless, Heavy Producer,
Practically Coreless**

EARLY WONDER THORNLESS

Trademark Applied For

EARLIEST and THORNLESS

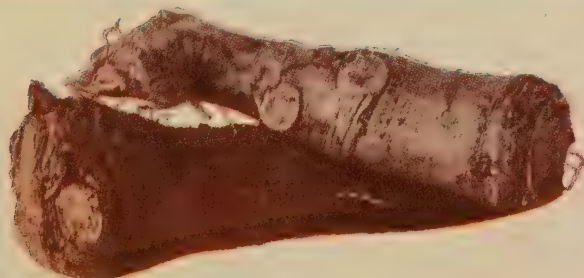

This variety was discovered here in the heart of the fruit belt, several years ago by Mr. Henning, who found it growing in a patch of Latham. Now, he, as well as many other wide-awake farmers, grow this Thornless Red Raspberry exclusively. Early Wonder is a combination of tested and proven merits.

IT'S NEW—EARLY THORNLESS

What more could you ask for? Yes, it's a sturdy, upright grower. Very productive. Ripening about ten days earlier than Latham, together with the attractive appearance of those immense berries borne in beautiful, dazzling, bright red clusters, makes Early Wonder a best seller. Very firm—do not crumble. Excellent shippers. Their pleasing flavor—truly a delicacy fresh, canned, fresh frozen or in preserves or jellies makes them a housewife's favorite. The silky smooth easy to handle canes are a labor saver to the commercial grower, and a delight to the home gardener. Sold exclusively by Westhausers. Supply limited, order yours now and avoid disappointment.

MARY WASHINGTON ASPARAGUS

Giant Stalks—Full of Vitamins

Mary Washington was introduced by the U. S. Department of Agriculture, it is now the leading variety for home and market. It is rust-resistant, producing crisp, green, compact stalks, sometimes measuring up to an inch in diameter. Get started this year with this "full of vitamin greens."

The demand for this delicious vegetable increases each year—the first greens from your garden in the spring.

For Commercial Growing. The first cash crop in the spring. Fancy stalks for the stores and market. The No. 2 grade for canning and canning factories. During the past few years the Fresh Frozen Food Companies have created a large demand for Asparagus, increasing each year. Asparagus will last upward to 20 years or more. 5000 roots will plant an acre.

MacDonald ALL RED TENDER RHUBARB

The last word in Rhubarb. Prof. L. G. Bunting of the MacDonald College in Quebec, Canada, where it was originated, says: "It is very highly colored, a dazzling attractive red stalk, of large size, productive, very tender and succulent, and of excellent quality; particularly valuable for pies and desserts." Its color, when cooked without peeling, is as attractive as that of Raspberries. Not grown from seed. Plants propagated by division. Try some this year. You will like it. PRICES: \$1.00 each; 3 for \$2.00; 6 for \$3.75; 10 for \$6.00.

Best Standard Varieties of

FREDONIA (Black)

A winner. This new variety threatens to displace all other black Grapes. A new, very early Grape, originated and thoroughly tested by the New York Experiment Station. The clusters and berries are large, with excellent flavor. Ripens fully 10 days before Moore's Early and is an excellent shipper, as it does not crack. This Grape fills a long-felt need—a juicy, delicious black Grape that ripens early. Vine vigorous and productive. One of the best new varieties. See yellow block upper right corner page 13 for prices.

Golden MUSCAT

This new hardy California type Grape can be grown in every section of the country. Berries are large, sweet and meaty. Ideal for home use and roadside stands. Compact bunches are large, heavy, broad shouldered, and tapering. Very productive. Like a fertile soil. See Yellow block upper right corner page 13 for prices.

New SENECA

Just a nice tender munch, and a sweet, juicy crunch; no skins to worry about—that's Seneca Skinless Grape. It is the newest of the hardy California type Grapes, and has this important quality of edible skin. Flavor sweet, melting, delicious; vine vigorous and productive; bunches well filled and attractive. **PRICES: \$1.00 each; 3 for \$2.75. Net, No Discount.**

Red Lake CURRANTS

Outbears Others Two to One

Double your crop and profits by raising these big, very productive Currants. Bushes thrifty and exceptionally hardy, easy to grow. The berries are dark red in color, being borne on long, well-filled bunches, are a pleasure to pick. Originated in the Northwest where the temperature goes 40 degrees below zero. They ripen in early midseason and last over a long period. **PRICES: 2-yr., No. 1 plants, 65c each; 3 for \$1.80; 10 for \$5.50; 25 for \$10.50.**

GOLDEN GOOSEBERRY

Hardy, Heavy Bearing. The berries are very large with a delicious flavor. Their greenish yellow color turns to pink when fully ripe. Plants are hardy, vigorous growers; bears young and annually on sturdy bushes. Plants will last for years with very little care. Very good for pies. **PRICES: 80c each; 3 for \$2.00; 10 for \$6.50; 25 for \$15.00.**

GRAPES

CACO

The Best Red

This is a variety considered the best and hardestst amber-red ever produced, the bunches being very large and the berries comparable with the new Fredonia. In quality Caco ranks among the best of the native Grapes, approaching in flavor European Muscat rather than the foxiness of native Grapes.

NIAGARA (White)

The leading commercial White Grape. The compact bunches of large, fine flavored, juicy berries are in big demand for table and wine. Very productive and hardy. Ripens about the same time as Concord.

CONCORD (Blue)

Most popular Grape for eating, table use, wines, jams, jellies and commercial. Grows on all kinds of soil, and produces large crops. The bunches are large, compact and well-shaped; berries are dark blue and very juicy. Plants are exceptionally hardy. Fruits in October. Here in the heart of the Fruit Belt thousands of truck loads are shipped annually. Order now. Stock is short.

DELAWARE

Berries are compactly set, light red, sugary and delicious. A favorite dessert Grape, and among the very best red varieties, sweet, tender and juicy. Good keepers and shippers.

Seedless CONCORD

After years of experimentation and cross-breeding a perfectly hardy, seedless Grape has been developed. The first of a new race of Grapes that should eventually replace the common large seeded varieties for table use. It is of the Concord type, but slightly smaller, blue-black in color and possesses the same fine flavor found in the Concord Grape.

JUMBO Hansen Bush Cherry

Stocky, Heavy-Rooted Plants Will Fruit Quick

A rapid growing ornamental—can be planted singly or in groups; makes a gorgeous hedge with its snowy white blossoms. Bush Cherry is hardy and easy to grow; will thrive on all kinds of soil. The Cherries are large and Plum-like, fine for eating fresh from the bush. They have a wonderful flavor, most outstanding for jams and jellies. The bush grows from 4 to 5 feet. Foliage is very attractive, silvery green turning to red and gold in the fall. **PRICES:** Heavy, 2-yr., 18-24", 75c each; 3 for \$1.75; 6 for \$3.00.

As large as Bartlett. Waxy yellow skin with russet flecks and red cheek. Easy to can. Serve smooth halves or whole Pears for fine salads and desserts. Ripens 10 days after Bartlett. Usually bears when 3 years old, produces enormous crops. **PRICES:** 9/16", 4-5 ft., \$2.00 each; 3 for \$5.75. 11/16", 5-6 ft., \$2.50 each; 3 for \$7.50.

REDHAVEN

Earliest, Dazzling, All-Red, Self-Pollenizing Peach. Ripening 3 weeks to a month before Elberta, and other standard varieties with its bright, brilliant red coloring makes it a sure hit and big money maker. Fruit is medium size, freestone, completely covered with a bright red, smooth skin. It is rich in flavor, sweet and abundantly juicy, meat being fine grained and red to the pit. Excellent shipper.

HALE-HAVEN

(Early Yellow Freestone.) A large, beautifully colored yellow-fleshed Peach ripening about 2 weeks before Elberta. A perfect freestone, extremely high color; colors a few days before it is ripe on the trees, therefore can be picked reasonably green for long distance shipping. Juicy, mild, pleasing flavor. One of the best canning Peaches.

SOUTH HAVEN

(Early.) Ripens considerably earlier than Elberta. Wonderful canner and shipper. Golden yellow with a red cheek. Good juicy flavor.

ELBERTA

(Midseason.) The Standard of All Peaches. This outstanding midseason variety is grown over the entire country for both commercial and garden purposes. Very large, yellow with red blush cheek, very juicy, highly flavored. Hardy, vigorous grower; does well in all Peach growing sections. Ripens fore part of September.

BARTLETT PEAR

The most popular Pear for home use and market; a leader among canning Pears. Large golden yellow with a blush on the sunny side. Flesh tender, melting and juicy, with delicious, musky flavor. Tree is vigorous, erect and bears abundantly. **PRICES:** 9/16", 4-5 ft., \$1.60 each; 3 for \$4.50.

KIEFFER PEAR

(Fall.) Large, handsome appearance; rich golden yellow sometimes tinted red on the sunny side. Bears largest, most consistent bumper crops. Wonderful keeper, good long distance shipper. Tree hardy; very strong grower; bears at an early age, producing phenomenal crops. **PRICES:** 9/16", 4-5 ft., \$1.50 each; 3 for \$4.00.

Outstanding CHERRIES

DWARF

Apple and Pear TREES

A FULL ORCHARD FOR A LIMITED SPACE

Dwarf Apple

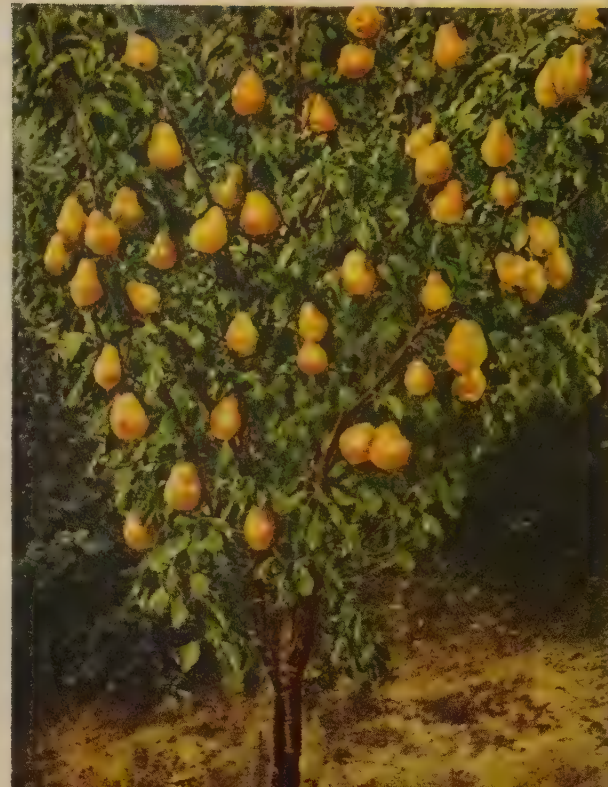

These hardy, productive trees bear abundantly, more fruit in proportion than an average tree. They are easy to prune and spray. Fruit is easy to pick. They usually bear the first to second year after planting. Quality of fruit is excellent for eating, preserving and freezing. Extremely attractive during early spring, they are loaded with gorgeous blooms. (This makes them two-fold—a productive tree and a beautiful tree-shrub.) An ideal planting for your limited amount of space. Get yours now. Supply limited.

Compact, plant them about 15 feet apart, attain a height in the neighborhood of 10 feet. **DWARF APPLE VARIETIES**—Anoka, Red Delicious and McIntosh. **PRICES:** \$3.25 each; 2 for \$5.75.

DWARF PEAR PRICES: \$2.25 each; 2 for \$4.00.

Nuts that PAY!

THOMAS BLACK WALNUT

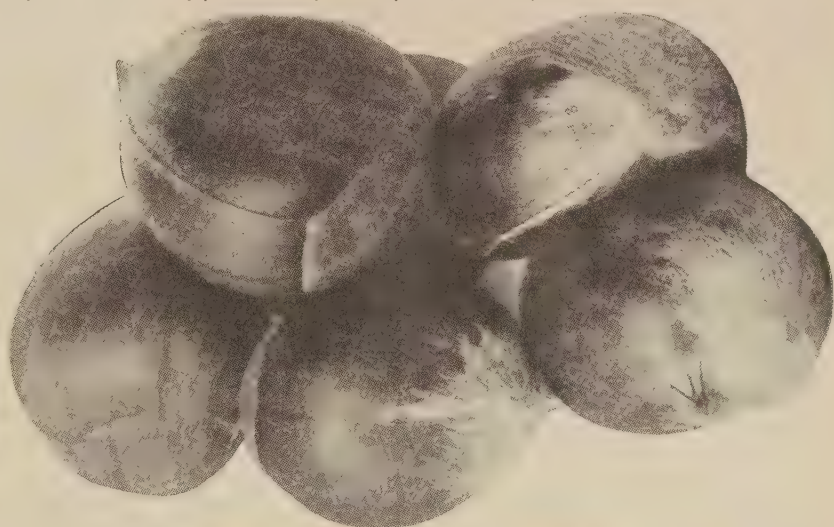

Plain Facts
In a
Nut Shell

- Thinnest Shell
- Largest Meat
- Best Flavor

Thomas Black Walnut—the Improved Walnut—having a comparatively thin shell, making cracking easy! Big delicious kernels, making them easy to pick from shell! But still having the true delicious walnut flavor so desired for candies, cookies, cake, hot breads, and topping many dishes!

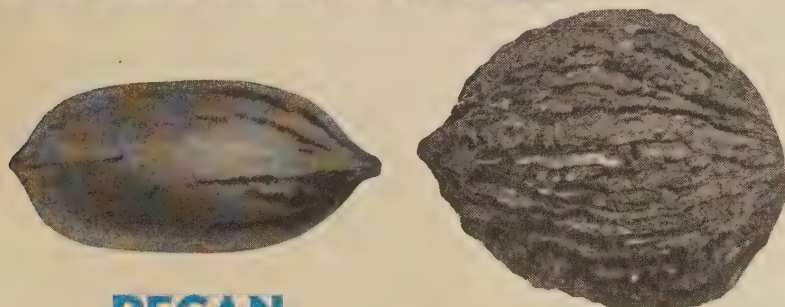

It is the most remarkable of all Nut Trees—bearing young (often 2 years after planting); a very heavy producer; thrifty tree, grows almost anywhere. This profitable tree

makes an ideal shade tree. Plant a Thomas Black Walnut Tree. PRICES: 3-4 ft., \$3.00 each; 3 for \$8.00; 6 for \$15.00. 4-5 ft., \$3.75 each; 3 for \$9.75; 6 for \$19.00.

CHINESE CHESTNUTS

A new Chestnut with larger, better quality nuts. The trees we offer are blight-resistant, and of only one quality—the **Finest Grown**. Not only do these trees produce large, delicious, full-flavored Chestnuts at an early age, but their beautiful rounded, spreading branches rapidly develop into a lovely shade tree to grace any home lawn. Have the thrill of roasting chestnuts from your own tree over an open fire. Try them boiled or roasted—delicious beyond descriptions. PRICES: 1-yr., 12"-15", \$1.50 each; 3 for \$4.00. 2-yr. heavy, 24"-36", \$2.00 each; 3 for \$5.50.

PECAN

Hardy Northern Grown

Just as hardy as Hickories, and should not be confused with southern grown stock. Our trees are Michigan-grown and have withstood temperatures of 17 to 20 degrees below zero without injury. Ideal shade trees, practically immune from insects, and do not shed their leaves until late in fall. PRICES: 2-3 ft., \$1.50 each; 3 for \$4.00; 6 for \$7.50. 3-4 ft., \$2.00 each; 3 for \$5.25; 6 for \$9.50. Net, No Discount.

Black Walnut

Well known, very productive, easy to grow and hardy practically anywhere. Richly flavored kernels useful for many purposes. A beautiful lawn or shade tree, symmetrical, dark green foliage which turns to a flaming coppery red after frost. High timber value. PRICES: 2-3 ft., 60c each; 2 for \$1.00; 5 for \$2.00. Net, No Discount.

New Washington Hawthorn

A Four-Season Shrub-like Tree

This unique tree is truly a year-around beauty.

SPRING. June blooming brings forth dense clusters of creamy white flowers which makes it an excellent lawn specimen.

SUMMER. It is admired for its deciduous dense, narrow, glossy green foliage. Its shapely form renders it useful as a hedge.

FALL. Foliage turns to rich orange and red hues, so deeply characterizing the season.

WINTER. The charm of this lovely shrub lies in its brilliant red berries lasting through the winter. Just picture the splendor of this lovely bush heavily loaded with brilliant bright red berries against a background of newly fallen snow and an azure-blue sky. A real feeding spot for birds such as Cardinals, Cedar Wax Wings and many others who love the juicy red berries. Very hardy; attains height of 15 to 25 feet, easy to transplant, disease resistant, good root system.

PRICES: \$1.50 each; 3 for \$4.00.

BEAUTY—July-Nov. with Azalea Type Egyptian MUMS

5 Outstanding Mums—Abounding in Beauty

Blossoms! Blossoms! Everywhere! Unless you have seen these gorgeous, dwarf, Azalea-type Mums, you cannot visualize their beauty; **one plant**—a flower garden in itself, 500 to 1000 blooms the first year, many more the next.

How invigorating on chilling fall days—with summer blossoms gone—to have this autumn queen impart to us the gifts of each season—all the freshness of spring through the deep golden yellow—the bloom and glow of summer found in the pure snowy white, and lovely rose-pink—and all the wealth of autumn colors intensified in the brick-red and outstanding bronze. Friends and neighbors will exclaim in awe at the warmth of color that dazzles the eyes.

A pleasure to care for: These plants are extremely hardy to grow, attaining a height of 1½ to 2 feet. Lasts almost a lifetime. Grows well on all types of soil. **PRICES:** 40c each; 4 for \$1.35; 8 for \$2.50; 12 for \$3.50; 25 for \$7.00, prepaid. Net, No Discount.

Flowering SHRUBS

SNOWFLAKE New Double Mock Orange (Plant Patent No. 538)

Called a "Mock Orange" yet so very new and distinctive it is really in a class by itself. Its very double snow-white blossoms among the large, leathery, glossy green leaves make it unsurpassed in beauty by all other flowering shrubs.

The unusually symmetrical plants are very rugged, quick growing, not particular as to the soil and will stand the shade better than most flowering shrubs.

Its snow-white blossoms reaching its maximum of bloom in May and June, yet lingering throughout the entire summer, make it very useful for accent planting. The sweet scented blooms will perfume the summer shrubbery border. Order early and have this beautiful shrub reserved for you. **PRICES:** \$1.50 each; 3 for \$4.00.

SPIREA VAN HOUTTEI

The arching sprays are covered with countless white flowers in early spring. Very hardy, used in all sorts of landscape work. Grows to height of 6 feet. **PRICES:** 18-24 in., 50c each; 10 for \$3.75.

AMOR RIVER PRIVET

The hardiest and one of the most beautiful hedges. Glossy green leaves stay on long into the winter. **PRICES:** 12-18 in., heavily branched, 45c each; 10 for \$2.75; 50 for \$10.00.

BUDDLEIAS

3 Beautiful Colors—Will Bloom This Year

The Lilac-like flowers are produced in panicles 15-18 inches long. Such a profusion of these fragrant flowers is produced that it is doubtful whether any other shrub blooms so abundantly and over so long a period, extending from July until late autumn. The compact bushes attain a height of about 5 feet. The leaves are long and rather narrow. The butterflies attracted to these plants in the garden add to their interest. The old wood dies back during the winter and should be pruned out as soon as new shoots come up from the ground in spring. We have selected what we believe are the three most outstanding varieties.

ROYAL RED. (Pat. Applied For.) The reddest Buddleia, a glistening, satiny, purplish red. A brilliant variety for cutting. **PRICES:** \$1.00 each; 3 for \$2.75, postpaid. Net, No Discount.

PINK CHARMING. Rosy, orchid-pink, exotic, full tapering flower panicles, with foliage of clear green, blends with any background. **PRICES:** 60c each; 3 for \$1.75, postpaid. Net, No Discount.

HARTWEGI. A pleasing, bright lavender with each tiny floret having a distinct orange eye. Excellent for cutting. **PRICES:** 60c each; 3 for \$1.75, postpaid. Net, No Discount.

WINTER DAPHNE

(Mezereum)

Often blooms in February in mild climates. In the North it comes into full bloom the first part of March. You cannot help but be delighted with the tantalizing, spicy fragrance of the beautiful, rose-violet clusters of flowers. Bushes are glowing, never get over 3 feet high, and the plant will have a spread of about 2 feet. It is an excellent edging for evergreens and rock gardens. The long narrow leaves are bluish green which appear after blooming and remain into the winter. Loves shade and moist locations, also does well in sunny places. Wrapped in peat moss in which it can be planted as it is an acid loving plant. **PRICES:** 3-year, field-grown, \$2.00 each; 2 for \$3.75.

BITTERSWEET

Lustrous green foliage throughout the summer, turning a bright yellow in fall. The berries are a bright orange and very showy, stay on into the winter. Much used for autumn and winter bouquets, being permanent. Two plants needed for cross pollenization. **PRICES:** 3-yr., extra heavy, 65c each; 3 for \$1.75; 6 for \$3.25.

FRENCH PUSSY WILLOW

A small tree-like shrub with attractive leaves 2 inches long and an inch wide. Its popular appeal is the conspicuous silky catkins which bud in the fall and make those "springy" bouquets just as the snow melts in spring. **PRICES:** 2-yr., 55c each; 3 for \$1.40.

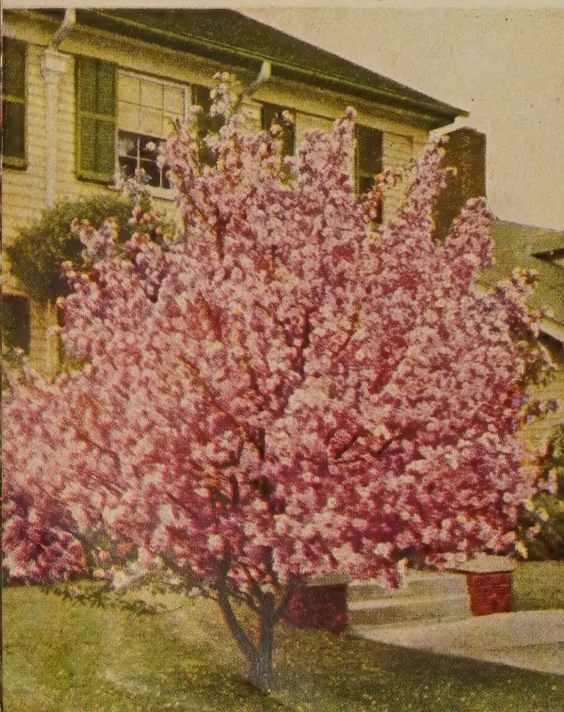

Ornamental TREES, SHRUBS

Smoke Tree

Redwood Plum

Hopa Flowering Crab

SMOKE TREE

(Purple Fringe)

An enchanting treelike shrub, enveloped in mid-summer with showy masses of purplish misty flowers resembling beautiful clouds of drifting smoke. Attractive brilliant scarlet and golden autumn foliage. A hardy recognized garden beauty. **PRICES:** 18-24", \$1.25 each; 3 for \$3.25; 6 for \$6.00. 24-36", \$1.60 each; 3 for \$4.25.

RED FLOWERING PEACH

Symbol of Spring

(Earliest to Bloom in Spring)

As one eagerly waits for spring, Red Flowering Peach bursts forth with countless rosy lavender blooms that appear along the numerous, wide-spreading branches, so thick are the flowers that the tree appears as a small pink cloud. It is one of the most attractive of the low-growing, flat-topped trees, attains a height of about 15 feet at maturity. Flowers appear before the tree leafs out in spring. Due to the extreme hardness of the wood, the tree is usually very late in leafing out. **PRICES:** 3-5 ft. plants only \$1.50 each; 2 for \$2.75.

Red Flowering Peach

NEW PURPLE LEAF PLUM

(Newport)

A new semi-dwarf tree. Truly picturesque with its rich dark purple foliage. A charming sight in early spring with its masses of rosy pink flowers that burst forth just as the leaves begin to unfold. Plant one of these and we feel you will agree it is one of the most effective specimens in your yard. Very hardy, upright grower; ultimate height is approximately 12 feet.

PRICES: 3-4 ft., \$1.50 each; 3 for \$3.75; 6 for \$6.50.

HOPA Flowering Crab

Hopa is undoubtedly the most beautiful Flowering Crab that can be grown in the North successfully. It is an upright tree entirely covered with beautiful red-crimson flowers which last a long time, followed by fruit which is red throughout, and lingers until fall. The fruit is excellent for canning or jellies. Tree is very hardy and disease free. Outstanding sensation for single or group planting. **PRICES:** 3-5 ft., \$1.25 each; 3 for \$3.00; 6 for \$5.00. 4-6 ft., \$2.00 each; 3 for \$5.25; 6 for \$9.50.
